

## **Sarah Palintology:**

**The study of the Republican Dinosaurial nomination of Sarah Palin for the 2008 Presidential Campaign.**

The Republicans have replicated the DNA of the **hockeymom-o-pod** from the previous Republican **you-bet-JurASSic** period of politics during the era of the Reagan Administration. This was back when the most gigantic conservative political dinosaur of them all roamed the political landscape – the rise of the deregulation beast, the mighty **crockashitforus!**

Sarah Palin is a replicated creature from that era – ancient political DNA brought back to life. Her perky presence permeates the wasteland of T.V.

**The past stalks the future to terrorize us once again!**
